User Acceptance Testing (UAT) Template

Date	2 MARCH 2026
Team ID	
Project Name	AI FINANCIAL ADVISOR
Maximum Marks	

Project Overview:

Project Name: AI Financial Advisor

Project Description: AI Financial Advisor is a web-based application that helps users manage their personal finances by analyzing income, expenses, and savings. The system uses AI-based analysis to provide budgeting suggestions, financial insights, and recommendations for better financial planning.

Project Version: Version 1.0

Testing Period 5 March 2025 to 10 March 2025

Testing Scope:

Features and Functionalities to be Tested

- User login and authentication
- Financial data input (income, expenses, savings)
- Expense tracking functionality
- AI-based financial analysis
- Budget recommendation system
- Financial report generation
- Dashboard display

User Stories / Requirements

- User should be able to enter financial data
- System should analyze financial data using AI
- System should provide personalized financial advice
- User should view financial summaries and reports

Testing Environment:

URL/Location: https://ai-financial-advisor-mqpu.onrender.com

Credentials (if required): [Username/Password]

Test Cases:

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	User Login	1. Open application 2. Enter username and password 3. Click login	User successfully logs into the system	Login successful	Pass
TC-002	Enter Financial Data	1. Open dashboard 2. Enter income and expenses 3. Submit data	System stores financial data correctly	Data stored successfully	Pass
TC-003	Expense Analysis	1. Enter expense data 2. Run analysis	System generates expense analysis report	Report generated	Pass
TC-004	Budget Recommendation	1. Enter financial details 2. Request AI advice	System provides budgeting suggestions	Budget suggestions shown	Pass
TC-005	Dashboard Display	1. Open dashboard	User can view financial summary and charts	Dashboard displayed correctly	Pass

Bug Tracking:

Bug ID	Bug Description	Steps to reproduce	Severity	Status	Additional feedback
BG-001	Delay in loading financial analysis results	1. Enter large financial dataset 2. Run analysis	Medium	Closed	Performance optimized
BG-002	Minor UI alignment issue on dashboard	1. Open dashboard on mobile device	Low	Closed	UI adjusted for responsiveness

Sign-off:

Tester Name: Project Testing Team

Date: [Date of Test Completion]

Signature: [Tester's Signature]

Notes:

- Ensure that all test cases cover both positive and negative scenarios.
- Encourage testers to provide detailed feedback, including any suggestions for improvement.
- Bug tracking should include details such as severity, status, and steps to reproduce.
- Obtain sign-off from both the project manager and product owner before proceeding with deployment.
